**WE ARE
A MODERN**

CREATIVE DESIGN STUDIO.

Based in Nairobi

About Us

Mark & Ryse is a digital creative design agency founded in 2011. We do creative web & graphic design for urban and peri-urban markets. We're a young group, with fresh ideas and the expertise to back up all we do. Our team is comprised of creatives from diverse designer backgrounds, which means out-of-the-box designs for whatever project we're working on. Our focus is on providing amazing solutions through a combination of common sense and creative presentation. With strategy, technology know-how and design under one roof, we provide the complete package for your success.

Our **strategy** is to focus on cutting edge technologies and user experience to greatly enhance and deliver on your design. We do this by constantly upgrading our skills, consistently pursuing new research avenues, always working to learn about new technology and encouraging our teams to participate in continuing education opportunities.

Our Team

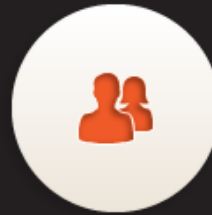

Michael Mark
Web Design

All those hours spent browsing online in campus must have had something to do with what he does.

Nicole Marosi
Creative Direction

Design can be taught and it can also be inborn. We are sure it's inborn.

Stellamaris Agatha
Sales

Bubbly and streetsmart, she's been selling ever since we knew her. At times we wonder whether she is conscious when selling.

Robert Kodingo
Online Reputation Management

Experience is the best teacher. We know there is no substitute for cutting edge training.

OUR **SUCCESS** LIES IN OUR
YOUNG, **IMAGINATIVE** TEAM.

We are driven by the passion to attain beauty.

OUR SERVICES

We like to think of ourselves as master craftsmen and women who take up the challenge of presenting mundane typography & graphics as stimulating art forms through a combination of intelligence and wild imagination. This is what we enjoy getting up to whether for web, or any print design project you may have in mind.

Web Design & Development
